1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Frederick Vastine on July 19, 2004.

The application has been amended as follows:

Claim 37 (Amended):

A method for separating zeolite crystals from an aqueous medium [The method according to Claim 36], comprising:

(a) preparing an aqueous alkaline mother liquor containing alumina and silica precursors and optionally an organic templating agent;

(b) hydrothermally treating said mother liquor thereby obtaining a suspension containing zeolite crystals, silicates or amorphous silica aluminate and

- optionally (i) organic templating agent and product generated by decomposition of the organic templating agent and optionally (ii) alcohol derived by the decomposition of said silica and alumina precursors;

(c) treating the alkaline zeolite crystal containing suspension with an acid until the suspension attains a pH ranging from 3-8; and

(d) filtering or decanting the resulting mixture to isolate the zeolite crystals.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a method for separating zeolite crystals from an aqueous medium comprising the steps (a) and (b) in combination with steps (c) and (d), as required by the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
